Response Time and Staffing Resources

- The Action Technology, Inc. staffing division maintains a proactive strategy in satisfying our stakeholders with innovative solutions.
- We strive each day to meet our client's needs with the best candidates possible. This includes reaching out to the next generation of workers in creative ways as well as tapping into military transitions and various training programs.
- One advantage over in-house hiring efforts and other staffing firms is our private database of talented people and its network of industry sources.
- We retain a pool of pre-screened candidates and proactively recruit local candidates to address urgent staffing requirements.

Recruiting Strategies

- Action Technology, Inc. is the kind of staffing company that attracts and retains qualified employees.
- We are focused on providing the best people, the best service, and the best experience for employees and clients alike.
- Action Technology, Inc. works across industry sectors, deploying the best practices in each sector.

Recruiting Strategies

- Action Technology, Inc. has the capabilities and resources to respond to special or urgent requests.
- Our recruiting specialists access our internal database as well as industry-specific websites, job fairs, military resources/programs, community events, social media, educational institutions, trade schools, and trade shows.
- Action Technology, Inc. routinely meets and exceeds response time service level agreements and performance metrics for a wide range of clients in multiple industries.

Reference Checks and Screening

- Action Technology, Inc. has more than 35 years of experience screening candidates to fill diverse needs of our many clients.
- We have developed quality procedures to screen the qualifications, experience, and background of potential employees.
- Action Technology, Inc. will meet or exceed the client standards for employment reference checks and it is our standard policy to ensure reference checks are favorable.
- References and background are checked with state-of-the-art resources. Our recruiters look at the hard facts, staying professional and objective. They not only sort skill from prior experience, but also factor in how different organizations can change how different people perform.

Reference Checks and Screening

- Our screening process starts with the phone interview. The recruiter discusses the candidate's employment history and experience in relation to the job requirements.
- Education, certifications, and relevant training are documented as well as reference information. Employment, education, and training are verified.
- Once the recruiter recommends an applicant for placement, the candidate is subject to further screening upon request, such as state and federal criminal record checks, pre-employment substance screening, state DMV file check (for driving positions), military records, and credit history. Upon completion of an applicant's screening with favorable results, the candidate is available for assignment.
- Action Technology, Inc. will perform employee orientation in accordance with all client applicable policies and procedures, ensuring that all temporary personnel are familiar with client procedures before they report.
- We will obtain necessary candidate training and skills testing programs as required.
